Breakfast in the Classroom (BIC) Grant Program Application School Year 2025-2026

The Eos Foundation is offering grants of up to \$20,000 to schools which want to transition from breakfast in the cafeteria before the bell to Breakfast in the Classroom after the bell (grant size depends on enrollment):

- \$5,000 per school incentive for implementing BIC, with an additional \$5,000 bonus for reaching 80% student participation
- \$10,000 to the school nutrition department for operating expenses, including equipment, such as roller bags and warming/cooling units

Current Breakfast Program

Please provide a summary of your school's breakfast service, including where it is served, how it is served, your morning schedule (what time does breakfast start and end), and how tardy students are accommodated:

School Nutrition Department Information

Do you run a self-operated meal service, outsource your school nutrition services, or both? If you outsource, who is your vendor partner?

BIC Program Plan

What are your goals for breakfast in the classroom in terms of participation? Eos considers 80% breakfast participation the gold star standard, and your school will receive an additional \$5,000 once it reaches this goal. Do you have a rollout plan already developed (please describe including your intended start date and whether you will pilot in a couple of classrooms or rollout to the whole school), or would you like technical assistance in creating one?

What do you see as the current barriers to breakfast participation, and specifically, to implementing the BIC program? Include any technical and logistical barriers.

Please return the completed application with related materials including equipment quotes to Megan Martino at martino@eosfoundation.org or call 413-992-4059 with any questions.
